

Mainstreaming on Ambient Intelligence

**The International conference**  
**AAL Services in Middle and**  
**East Europe**

---

Technical University of Košice  
Faculty of Mechanical Engineering  
Department of Biomedical Engineering, Automation  
and Measurement

April 12-14, 2011  
High Tatras, Slovakia

# Conference Organizers

---

- Faculty of Mechanical Engineering, Technical University of Košice
- Slovak Society for Biomedical Engineering and Medical Informatics
- Czech Society for Biomedical Engineering and Medical Informatics
- Slovak Technical Society of Medical technology
- International Commission on Technology and Accessibility - ICTA EUROPE Rehabilitation International

# Aim of Conference

---

- The aging of human population is becoming an actual problem in Europe. Similar but specific situation is in new EU countries as well. Regarding to this fact there are new requirements arisen to assure better quality of technologies, services and care for people with limited autonomy due to health condition and/or their special needs. The producers and/or providers of the mainstream technologies and services from different areas (telecommunication, industry, IT, engineering, etc.) are improving the tools for environment control based on the principles of universal design to be usable for any end user. This is also goal of the EU project **MonAMI – Mainstreaming on Ambient Intelligence** in 6.FP e-Inclusion.
- The overall objective of MonAMI is to mainstream accessibility in consumer goods and services, including public services, through applied research and development, using advanced technologies to ensure equal access, independent living and participation for all in the Information Society.

# Aim of Conference

---

- New services shall help elderly people and people with disabilities to achieve higher quality of life, satisfaction with their life conditions and with position within the society by supporting their autonomy (daily life activities, home and work environment, and preferring the home care rather than institutional care) using the ambient intelligence and development of broadband services in the Information society. This goal is covered by the AAL initiative, and MonAMI consortium joined recently this platform.

## General information

- Aim of the **Conference** is to make common forum for experts from developed EU countries with experts from the new EU countries involved in different areas of ICT services for elderly, Home automation, and Ambient Assisted Living to support transfer of knowledge and technology to new EU members.
- **Language:** English, Czech, simultaneous translation to Slovak language.

# Important Dates

---

- **February 15, 2011** Deadline for abstracts submission
- **February 28, 2011** Notification of abstracts acceptance/rejection
- **March 10, 2011** Deadline for conference fees payment (early registration)
- **March 31, 2011** Deadline for full papers (camera-ready copy) submission
- **April 5, 2011** Deadline for late registration, then on site
- **April 12-15, 2011** Conference date

# Topics

---

- Technological platforms of AmI
- Ambient Assisted Living
- Stakeholders in social services based on ICT
- Field trials of AmI services
- Users aspects in AAL programmes
- Regional conditions for social services in East and Middle Europe

# Programme

---

- April 12, 2011, Pre-Conference events
  - Training in AAL Services
- April 13, 2011, Conference 1.day
  - Opening ceremony 10:00
  - Presentation of papers 10:30 – 12:45
  - Lunch 13:00
  - Presentation of papers 14:00 – 15:30
  - Coffee break 15:30 – 15:45
  - Presentation of papers 15:45 – 17:45
- April 14, 2011, Conference 2.day
  - Presentation of papers 9:00 – 10:45
  - Coffee break 10:45 – 11:00
  - Presentation of papers 11:00 – 13:00
  - Lunch 13:00
  - Presentation of papers 14:00 – 15:30
  - Coffee break 15:30 – 15:45
  - Presentation of papers 15:45 – 17:45
- April 15, 2011, Post-Conference tours
  - Hiking to Kôprovská valley and Kmet'ô's waterfall
  - Visit of Pribylina museum

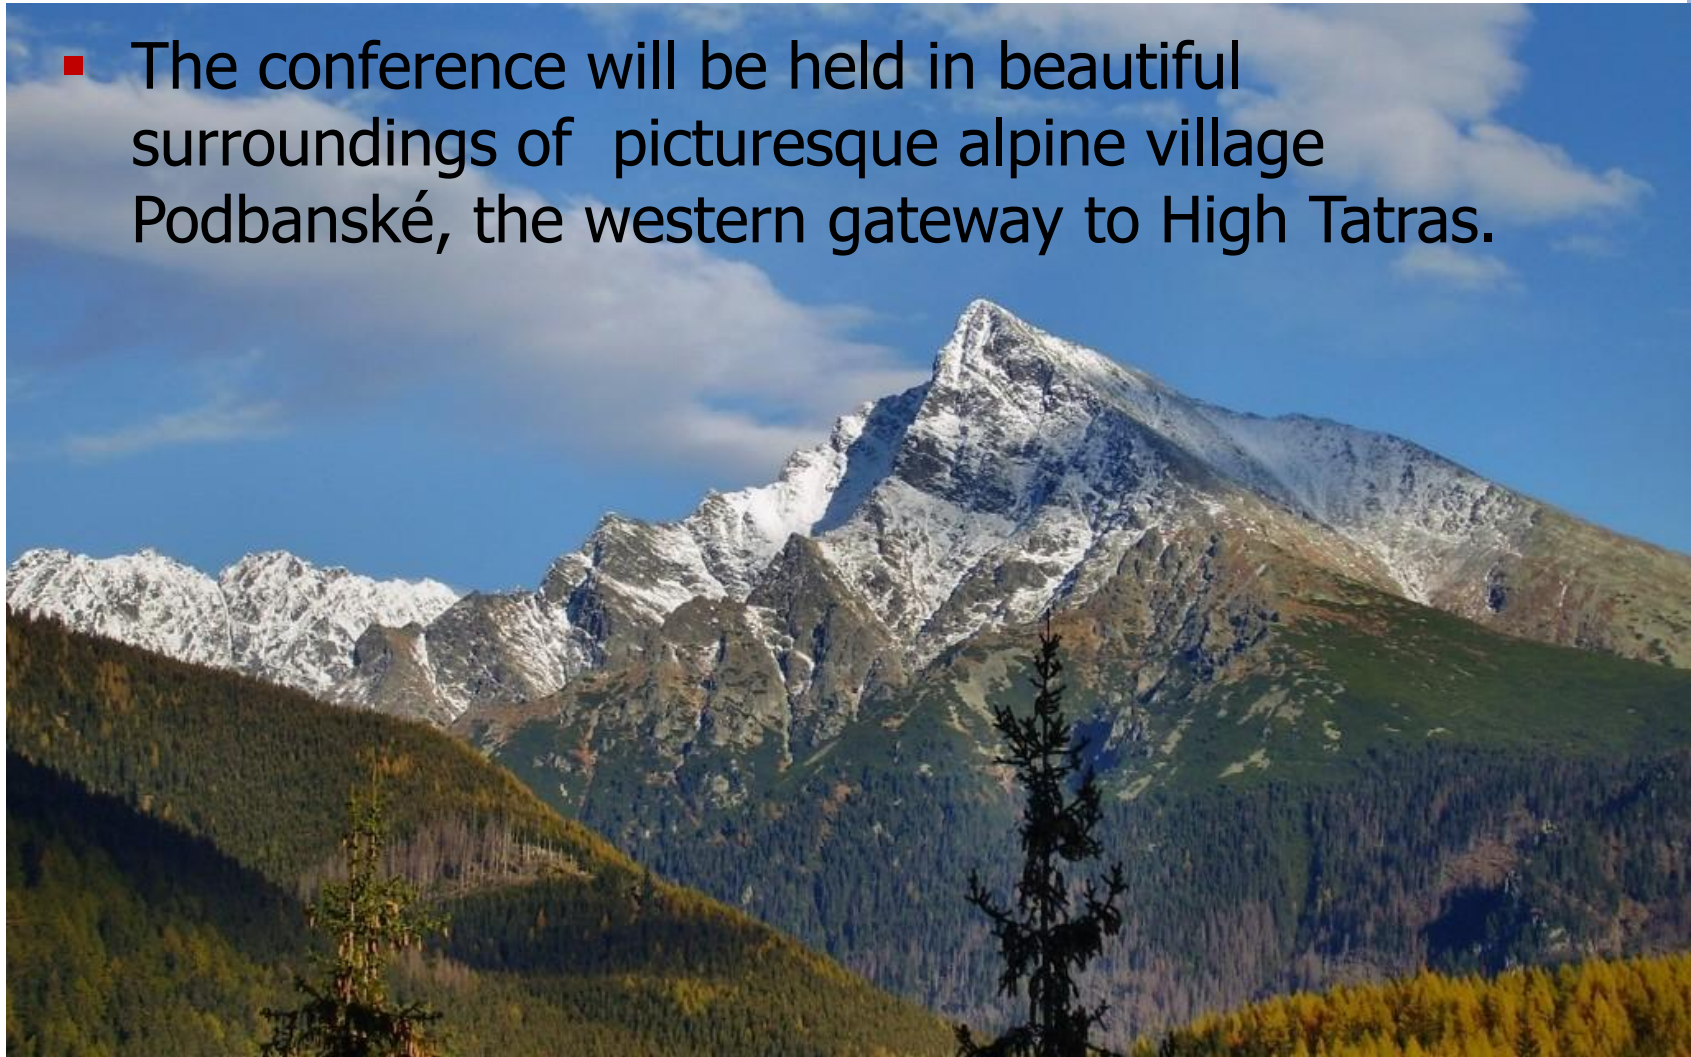

# Conference fees

---

- Registration fees
  - Early Registration (until March 10, 2011)
    - 90 EUR
  - Late Registration (after March 10 or on site)
    - 120 EUR

# Conference site

- The conference will be held in beautiful surroundings of picturesque alpine village Podbanské, the western gateway to High Tatras.

# Accommodation

---

- Grand Hotel Permon\*\*\*\* offers the chance to return to nature hand in hand with the luxury of 21st-century comfort and the largest wellness centre in Slovakia.
