

Proposal on Standards Adoption

- Purpose
 - Adoption of standards in order to move from today fragmented markets to tomorrow mainstream market
- Policy
 - **Set up and support a long-term consensus building process (e.g. forum) for ageing well (2010-2040)**
 - agree on domain application standards and their mapping on underlying technology/platform.
 - harmonize procurement approaches so that they (only?) use standards
 - address other issues (legal aspects, certification, national specificities...)
- Cost
 - Cost of organising working groups and decision processes
 - Equivalent of a permanent staff of 10+ persons ?
